

February 13, 2006

Mr. Norman A Kent, Manager
Transport Licensing and Regulatory Compliance
Westinghouse Electric Company
Nuclear Fuel, Columbia Fuel Site
P.O. Drawer R.
Columbia, SC 29250

SUBJECT: ACKNOWLEDGMENT OF RECEIPT - APPLICATION REQUEST FOR
REVISION OF CERTIFICATE OF COMPLIANCE NO. 9239 FOR
WESTINGHOUSE'S MODEL NOS. MCC-3 AND MCC-4 (L23939)

Dear Mr. Kent:

By letter dated January 25, 2006, Westinghouse Electric Company submitted an application for Amendment 13 of Certificate of Compliance (CoC) No. 9239. This application requested modification to the package contents for the subject transport packages.

This letter is to acknowledge receipt of your application and inform you that the application appears to contain the necessary information to begin our technical review. We have established a schedule for the technical review of your amendment request. The schedule allows for the staff to issue a possible request for additional information (RAI) in April 2006. To meet the schedule, it is incumbent upon Westinghouse to respond promptly and comprehensively to any RAI. If no RAI is needed, and based on the staff's evaluation, the amended CoC may be issued at approximately that time.

In general, no additional changes to the application will be allowed except for those minor changes that result in responding to an RAI. Additional changes, supplements, or enhancements may be treated as a new application.

Please reference Docket No. 71-9239 and TAC No. L23939 in your future correspondence related to this licensing action. If you have any questions regarding this matter please do not hesitate to contact me at (301) 415-8531.

Sincerely,

/RA/

Stewart W. Brown, Senior Project Manager
Licensing Section
Spent Fuel Project Office
Office of Nuclear Material Safety
and Safeguards
