Dear Alan:

As part of the Exelon Integrated Steam Dryer Project, GE is providing the proprietary and non-proprietary versions of the subject NRC presentation for transmittal to the NRC in Attachments 1 and 2. GE requests that any transmittal of this proprietary information to the NRC be accompanied by the enclosed affidavit and proprietary notice.

The affidavit provided in Attachment 3 affidavit identifies that the designated information has been handled and classified as proprietary to GE. The designated information is suitable for review by the NRC when accompanied by the attached affidavit. GE hereby requests that the designated information be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

If you have any questions related to the enclosures, please contact the undersigned at (925) 862-4410.

Very truly yours,

A handwritten signature in black ink that reads 'Richard J. Bodily'.

GE Proprietary Information

This document contains proprietary information of the General Electric Company (GE) and is furnished to Exelon Nuclear in confidence solely for the purpose or purposes stated in the transmittal letter. No other use, direct or indirect, of the document or the information it contains is authorized. Exelon Nuclear shall not publish or otherwise disclose it or the information to others without the written consent of GE and shall return the document at the request of GE.

GE proprietary information is identified by a underline inside double square brackets. [[This sentence is an example ^{3}]]. Figures and large equation objects are identified with double square brackets before and after the object. In each case, the superscript notation {3} refers to Paragraph (3) of the affidavit provided in Attachment 3, which provides the basis for the proprietary determination. Specific information that is not so marked is not GE proprietary.
