Brian,

Below are two issues to be included in the Issue List.

Michelle, please place this e-mail in ADAM with " Additional Issues for DSTF" title and DSTF term as the key search.

ISSUE NO. 31

PRIORITY H

STATUS Open

**ISSUE DESCRIPTION** The staff would like to engage industry on how to treat neutron absorber material process controls (how the material is manufactured and tested) in dry storage cask applications. In recent applications these process controls have been captured in technical specifications.

**REMARKS** The staff is considering generic guidance in this area. The staff would like to engage industry on whether neutron absorber material process control guidance should be developed, and if it is to be developed, how that guidance should be captured.

ISSUE NO. 32

PRIORITY H

STATUS Open

**ISSUE DESCRIPTION** The staff is considering revising ISG-18 to capture lessons learned from recent reviews and to make the guidance more clear.

**ACTION** -The staff is targeting issuing a draft of the revised guidance in the Winter of 2006. (This date is subject to change based on staff priorities.)
