

February 22, 2006

Mr. William Levis
Senior Vice President & Chief Nuclear Officer
PSEG Nuclear LLC - X04
Post Office Box 236
Hancocks Bridge, NJ 08038

SUBJECT: HOPE CREEK GENERATING STATION - AMENDMENT NO. 163

Dear Mr. Levis:

On February 8, 2006, the Nuclear Regulatory Commission (NRC) issued License Amendment No. 163 to the Hope Creek Generating Station (Hope Creek) related to the implementation of the Average Power Range Monitor, Rod Block Monitor Technical Specification/Maximum Extended Load Line Limit Analysis (ARTS/MELLLA).

The Safety Evaluation (SE) that was sent to you and members of the Hope Creek service list contains information that is proprietary to General Electric Nuclear Energy. The SE did not have the proper markings for proprietary information. The NRC staff is providing the members of the service list with a redacted SE and asking them to destroy the proprietary one.

Please destroy the improperly-marked SE, including any copies you may have made, for the Hope Creek ARTS/MELLLA license amendment. The NRC is in the process of issuing you a new copy of the amendment package with the appropriate markings on the SE.

Thank you very much for your assistance in this matter, and I apologize for any inconvenience.

Sincerely,

/RA/

Stewart N. Bailey, Senior Project Manager
Plant Licensing Branch I-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
