RECEIVED

Re: Page 1774 Federal Register/Vol 71 Wednesday January 11, 2006

An independent safety assessment
at Entergy in Vernon, VT is imperative.
As a parent and grandmother of ^{grandchildren} 11 children
who live in the proximity of this old
nuclear plant, an uprate of 20% poses
a much too dangerous risk to my family.

Please consider all the lives at risk
for immeasurable generations.

Sincerely yours,

Loris Lake
