To Whom it May Concern: RECEIVED

(42)

This is a brief note to let you know of my opposition to the 2090 uprate as proposed by Entergy, the owner of VT Yankee. This is ~~in~~ in reference to page 1774 Federal Register Vol. 71, No. 7, Wednesday, January 11, 2006. The uprate would increase radiation levels beyond acceptable limits.

Furthermore, the uprate would put added strain on the plant, already over 33 years old.

As one who lives within the 10 mile evacuation zone, the uprate would put all of us in greater danger.

Therefore, I urge an assessment be done along the lines of the one done at Maine Yankee.

Sincerely

Lou Waronker
