Re: Duane Arnold Energy Center
Docket No. 50-331
Disposition of Pending NRC Actions

By letter dated December 23, 2005, the Nuclear Regulatory Commission ("NRC") issued an Order approving the transfer of Operating License DPR-049 for the Duane Arnold Energy Center ("DAEC") from Interstate Power and Light Company ("IPL") and Nuclear Management Company, LLC ("NMC") to FPL Energy Duane Arnold, LLC ("FPL Energy Duane Arnold"). By letter dated January 27, 2006, the NRC issued Amendment No. 260 to Operating License DPR-049 for the DAEC. This conforming amendment reflects the actual transfer of the Operating License for the DAEC to FPL Energy Duane Arnold.

Prior to the transfer, NMC acting on behalf of IPL, made docketed submittals to the NRC that requested specific licensing actions, such as license amendment requests, relief requests, changes to the DAEC Security Plan, etc. Furthermore, in the application for the license transfer, FPL Energy Duane Arnold stated that upon transfer of the license, FPL Energy Duane Arnold would assume all previous commitments made for the DAEC. Accordingly, FPL Energy Duane Arnold hereby adopts and endorses those docketed requests currently before the NRC for review and approval.

There are no new commitments or changes to existing commitments being made in this letter. Should you have any questions regarding this matter, please contact Mr. Steve Catron at (319) 851-7234.
