SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES), UNITS 1 AND 2 -
NRC STAFF'S SITE VISIT ON JANUARY 18 AND 19, 2006.

Dear Mr. Amin:

I want to thank you and Mr. Lucas, and the staff members at CPSES who supported you, for a comprehensive presentation on digital modernization. Your presentation made our January 18 and 19, 2006, visit very productive.

The two days of discussion and presentations on your experience, insights from industry experience, and lessons-learned in digital modernization were very informative and beneficial to the NRC staff. We came away from the meetings with a greater understanding and appreciation of the issues and challenges CPSES and potentially other plants face as you and the rest of the industry upgrade control facilities, especially in the areas of instrumentation and control and human factors.

We look forward to continuing our dialog with you on this important topic of digital modernization. If I or our technical staff can be of assistance, please let me know.

Sincerely,

/RA/
