Subject: FYI: Request to Amend License SUA-648, LCs 58 and 61

Tom,

This e-mail is the NRC's official acknowledgment that we have received and docketed the following requests to amend License SUA-648:

- Request for Deviation from Ra-226 Topsoil Criteria for C-18 Pit, License Condition 58.
- Request for Deviation from Ra-226 Frost Protection and Exposure Rate Criteria, License Condition 61.

The Technical Assignment Control (TAC) number assigned to both requests is LU0123. In future correspondence pertaining to these amendment requests, please address to my attention, referring to this TAC number in the subject line.

Sincerely,

Paul Michalak
