SUBJECT: REQUEST FOR ADDITIONAL INFORMATION, HUDSON GLOBAL
RESOURCES MANAGEMENT, INC., CONSENT TO TRANSFER LICENSE,
CONTROL NO. 138332

Dear Mr. Moran:

This refers to your letter dated January 31, 2006 describing the proposed transfer of your licensed activities to VersaTech Engineering, LLC. This letter completes the actions for Control No. 138332.

From your letter, we understand that this transfer will not result in any change in location of use, materials, persons using licensed material, or persons responsible for radiation safety at the licensed facility, but will result in a change to the licensed name. Changes in the licensed name and changes of control such as this require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change. Commitments by the new and current/former owners should be endorsed by signature.

However, the letter does not contain all the information needed for consent of VersaTech Engineering, LLC to commitments made in the name of Hudson Resources Management Group. NUREG-1556, Volume 15, Program-Specific Guidance about Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Material Licensees, November 2000 provides guidance for changes such as your proposal. Appendix D (Examples of Change of Control), Direct Change of Control, paragraph (1) describes the change presented in the January 31, 2006 letter. Please provide such information as needed in Appendix F (Faxable Version of Information Needed for Transfer of Control Application). We note that items 1, 2 and 3 are satisfied by the January 31, 2006 letter. The letter does not provide information as needed to determine the status of items 4, 5 and 6.

NUREG-1556, Volume 15 is available at the NRC's Public Web Site in the Reading Room at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/> and selecting Volume 15.
