Dear Sirs/Madam,

I write in reference to page 1774 of  
The Federal Register. Vol. 71, # 7. Wed 1/11/06.  
I think your decision is flawed. I do not  
like your plan to conduct an experimental  
Power Ascension Test to see if The cracked  
steam dryer can handle more stress - while  
The plant is online. I agree w/ John Over  
that this approach puts all of us living in The  
vicinity at risk.

Give us an Independent Safety Assessment  
counting on you, L. Nowalka
