SUBJECT: NRC APPROVAL OF WESTINGHOUSE ELECTRIC COMPANY LLC'S  
REQUEST FOR WITHHOLDING PROPRIETARY COMMERCIAL  
INFORMATION FROM PUBLIC DISCLOSURE FOR REVISION NO. 6 OF THE  
PHYSICAL SECURITY PLAN PO-GM-006 (TAC NO. L52669)

Dear B.F. Maurer:

By letter dated January 5, 2006, containing an affidavit dated the same as the letter and executed by B.F. Maurer, Westinghouse Electric Company, LLC (Westinghouse) requested the U.S. Nuclear Regulatory Commission (NRC) to withhold from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390, information contained in the following document:

January 5, 2006 - Physical Security Plan, PO-GM-006, Revision 6

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

1. The information sought to be withheld from public disclosure is owned and has been held in confidence by Westinghouse.
2. The information is of a type customarily held in confidence by Westinghouse and not customarily disclosed to the public.
3. The information is being transmitted to NRC in confidence and, under the provisions of 10 CFR Part 2.390, is to be received in confidence by NRC.
4. The information sought to be protected is not available in public sources or available information has not been previously employed in the same original manner or method to the best of Westinghouse's knowledge and belief.

We have reviewed your application and the material in accordance with the requirements of 10 CFR Part 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the document listed above marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR Part 2.390(b)(5). Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify NRC. You also should understand that NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if NRC makes a determination adverse to the above, you will be notified of the date of public disclosure, in advance which will be a reasonable time thereafter.

If you have any questions regarding this matter, I may be reached at 301-415-8580.

Sincerely,

**/RA/**
