Pat FYI, sorry forgot you on CC.....

C-11

rcy
From: Samuel Collins
To: Ellis Merschoff
Date: 11/15/04 4:29PM
Subject: Commissioner Merrifield Periodic-11-15-04

Discussion Topics: 1. Plant status items including preparations for his upcoming trip to Calvert Cliffs on 11/19. 2. Status of Hope Creek outage and plans for prestartup public meeting on 12/9. 3. The release of taped conversations by Dr. Harvin re PSEG SCWE activities and the plans for the public meeting of 12/2 to discuss licensee approach to issues. 4. IP-2 outage activities and preps. for closed Gov. to Gov. meeting on 12/16. 5. Status of preparation for the 2 public exit and stakeholder meeting at VY. (The Commissioner offered that it might be best to hold the meetings at a High School vs. College and the sooner the better, and requested that we keep the State of N.H. informed). 6. Status of Pilgrim licensed operators and approach to evaluate the ability to return to licensed duties. 7. Materials area- status of Baxter enforcement. 8. Counterpart meeting schedules in HQ this week for Div. Dirs. and SRAs (note that the Commissioner took notes on this and may show up..). 9. Meeting and surveys being conducted at Decommissioning sites MY, YR and CY. 10. Finally I briefed him on the recent IR and potential White finding at VY having to do with Tone Alert Radio control and operability. 11. In the materials area having recently returned from a trip to Troxler the Commissioner indicated that he saw advantages to the NRC maintaining license control over large manufacturing organizations with multiple sources.....no IOU's/Followup items. Sam
