Subject: Issuance of Vermont Yankee EPU license amendment

Attached is a letter from Sherwin Turk to the Licensing Board, providing notice that the NRC Staff has issued a license amendment for the Vermont Yankee Nuclear Power Station, authorizing an extended power uprate. Copies of the attached letter, the license amendment, and the Final Safety Evaluation are being transmitted to the Licensing Board and all parties on the NRC Staff's service list, for overnight delivery.

The license amendment and Final SE have also been placed in ADAMS. They may be viewed through CITRIX at this time, and should be available on web-based ADAMS applications tomorrow.

In the Matter of
Entergy Nuclear Vermont Yankee, LLC, *et al.*
(Vermont Yankee Nuclear Power Station)
Docket No. 50-271-OLA (Extended Power Uprate)

Dear Administrative Judges:

The NRC Staff ("Staff") wishes to inform you that it has today issued an amendment to the operating license for the Vermont Yankee Nuclear Power Station, authorizing an extended power uprate for the facility, increasing the maximum authorized power level from 1593 megawatts thermal (MWt) to 1912 MWt. Enclosed herewith is a copy of a letter from Richard B. Ennis (NRC) to Michael Kansler (Entergy Nuclear Operations, Inc.), dated March 2, 2006, transmitting the license amendment and Final Safety Evaluation ("SE") to the licensee.

In accordance with the telephone conference call held on January 24, 2006, copies of the enclosed letter and attachments are being transmitted herewith to all parties in the proceeding by overnight mail. The SE delivery date of March 3, 2006, should therefore be regarded as the "trigger date" for various actions specified in the Board's Initial Scheduling Order of February 1, 2005. See Tr. 762-63.

Sincerely,

Sherwin E. Turk
Counsel for NRC Staff
