Subject: Hackensack Medical Imaging, License 29-30884-01, DN 030-36507

Jim,

This is one of the licenses listed in the March 1, 2006, letter from Charles Giomuso from which he withdrew himself as RSO. I got a call back today from Mr. Frank Din at the office, who said he was returning my call for the President, Dr. Faizah Zuberi.

The office was last inspected by Steve Hammann in May 2005 and had no NRC licensed material at that time. Frank Din told me they had their PET equipment installed in Sept 2005, and began using the equipment with associated rad material in the Nov-Dec 2005 timeframe. He said they had a replacement physicist/RSO working at the practice. I told him the NRC license needed to be amended to show the RSO. He thought that had been done already, and seemed to confuse the NJ state license and a recent inspection with the NRC license. He asked what needed to be done and agreed to submit an amendment application immediately, asking if a fax was acceptable. I gave him the fax number.

I have not yet heard back from the Office Manager of the other license listed in Mr. Giomuso's letter, Garden State Magnetic Imaging (DN 030-36500) and will keep trying to reach her. I will send a copy of this email to LAT for placement into the ADAMS docket file.

Todd
