Dear Mr. Thompson,

SUBJECT: NOTIFICATION FOR LICENSE NUMBER: 37-19568-01

I am writing to notify you that we are adding an additional hot lab within our current facility. The Cardiopulmonary Department has moved from the second floor to the fifth floor. Due to the increased distance from our main Nuclear Medicine Department, which is located on the first floor, we are placing a hot lab on the fifth floor. The fifth floor hot lab will be utilized for receipt and storage of diagnostic nuclear cardiology stress doses. Primarily Tc99m-Cardiolite unit doses but occasionally Thallium 201 unit doses could be used. The Cardinal Health Radiopharmacy will deliver the radiopharmaceuticals directly to the locked hot lab and pick up the returned and used doses. We will maintain a dose calibrator in this hot lab. The policy and procedures utilized in the Nuclear Medicine Department will be applied to this hot lab.

If you require any additional information please do not hesitate to contact Audra Sidelinger, Nuclear Medicine Supervisor at (814) 375-3283.

Respectfully,

John S. Sutika
Vice President and Chief Financial Officer
