See attached.

I chose to promptly respond to this email and had cyndy put both the incoming and my reply into ADAMS. I don't know if a similar approach might apply for the emails to hub; the key difference is that stenberg's email to me simply endorsed a UCS letter that will eventually get a formal reply; but these emails to Hub are 'stand-alone.'

Dear Ms. Stenberg,

I have received your email supporting the recent UCS position on Salem and Hope Creek. We will consider it along with other input on this matter.

Thank you.

I support Dave Lochbaum's letter demanding the closure of PSEG's three nuclear plants until safety problems are corrected.

Mary A. Stenberg
