**Subject:** FYI - SCWE Public Mtg Information

I came across some information concerning SCWE at other plants, and I am unsure if the region has reviewed them.

San Onofre and Palo Verde in 2003 and 2004, respectively had public meetings w/ the NRC to discuss SCWE. I believe PSEG is reviewing this information to understand the potential items that may be discussed during our meeting with them. The meeting summaries can be found in ADAMS:

1. ML40290630 " Meeting Summary Discussing Palo Verde Safety Conscious Work Environment", dated Jan 29, 2004

2. ML03323058 "Summary of the Meeting With San Onofre Nuclear Generating Station to Discuss Safety Conscious Work Environment", dated November 18, 2003

If you have any questions please let me know.
