Name of Participant(s): Louis D. Rocchini, P.E., Vice President - Maguire Kathy Modes, Health Physicist - NRC

Subject: Amendment changed to termination request <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>		
Summary: The licensee's RSO no longer works for the company. The licensee has never possessed any portable gauges. They rent them for work at temporary job sites. However, they have not done this for several years. The current practice is to sub-contract out the portable gauge work. So after careful consideration, the licensee will be submitting a termination request annotating that they never possessed gauges and thus no residual contamination. NOTE: License Condition 10 does not list a physical storage facility.		
Action Required: Process termination request upon receipt of licensee's letter.
