Clarification Related to the FirstEnergy Nuclear Operating Company Request for Authorization to Use Delta Protection Supplied-Air Containment Suits as Respiratory Protection Equipment and Assignment of a Protection Factor

Ladies and Gentlemen:

By letter dated December 6, 2005, the FirstEnergy Nuclear Operating Company (FENOC) requested authorization to use Delta Protection Supplied-Air Containment Suits as respiratory protection equipment with an Assigned Protection Factor of 5000 (letter numbers: Beaver Valley L-05-056, Davis Besse Serial Number 3101, and Perry PY-CEI/NRR-2839L). In telephone discussions occurring during January 2006, the NRC staff requested clarification of a regulatory commitment made in the December 6, 2005 submittal. The regulatory commitment stated that the Delta suits will be used in accordance with the manufacturer's recommendations.

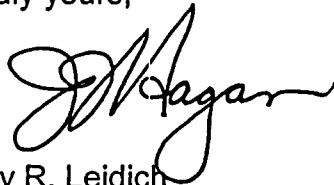

The manufacturer's recommendations to be implemented are contained in the "Mururoa V4 Fully Enclosed Suit - General Description" (dated June 9, 2001) and the "M.T.H. 2 - Instructions For Use" (dated December 2000). No exceptions will be taken. These documents were included in the December 2005 submittal as Enclosure 1 - Attachment 1 and Enclosure 1 - Attachment 6, respectively.

A001

This clarification revises the commitment description contained in the December 6, 2005 submittal. Attachment 1 provides the revised commitment. It replaces Commitment 1 described in the December 6, 2005 submittal.

If there are any questions or if additional information is required, please contact Mr. Gregory A. Dunn, Manager - FENOC Fleet Licensing, at (330) 315-7243.

Very truly yours,

for Gary R. Leidich  
President and Chief Nuclear Officer  
FirstEnergy Nuclear Operating Company

## **Regulatory Commitments**

The following list identifies those actions committed to by the FirstEnergy Nuclear Operating Company (FENOC) for the Beaver Valley Power Station, Unit Nos. 1 & 2, Perry Nuclear Power Plant, Unit No. 1, and Davis Besse Nuclear Power Station, Unit 1 in this document. Any other actions discussed in the submittal represent intended or planned actions by FENOC. They are described only as information and are not regulatory commitments. Please notify Mr. Gregory A. Dunn, FENOC, Fleet Licensing Manager, at (330) 315-7243 for any questions regarding this document or associated regulatory commitments.

### **Commitment**

1. The Delta Protection Supplied-Air Containment Mururoa V4 MTH2 Suits will be integrated into the First Energy Nuclear Operating Company (FENOC) respiratory program using the manufacturer's recommendations described in the "Mururoa V4 Fully Enclosed Suit - General Description" (dated June 9, 2001) and the "M.T.H. 2 – Instructions For Use" (dated December 2000). No exceptions will be taken.
