I'm submitting a FOIA request for two documents:

1. Office of Investigations report on Progress Energy's Crystal River nuclear plant in Florida, regarding the contract workers who gained access to the facility in 2005 with false identification papers.
2. Report on the security inspection related to allegations by Shearon Harris nuclear plant armed guard(s) who are employed by the Securitas firm. The complaints were filed by the Union of Concerned Scientists and and NC Waste Awareness and Reduction Network. This report has not been issued as of today (March 15) but it's expected to be issued soon.

Many thanks.
