Subject: Re: Oyster Creek Liscense Renewal

I am providing the following information on your questions listed below.

Please use this link for all general questions about the license renewal process:
<http://www.nrc.gov/reactors/operating/licensing/renewal.html>

For public involvement information:
<http://www.nrc.gov/reactors/operating/licensing/renewal/public-involvement.html>

Tutorial on license renewal:
<http://www.nrc.gov/reactors/operating/licensing/renewal/introduction.html>

The thousands of pages of documentation is available to the public in the ADAMS document portion of the NRC's public website.
<http://www.nrc.gov/reading-rm/adams/web-based1.html>

AMP = Aging Management Programs
AMR = Aging Management Review
RAI = Request for Additional Information
ACRS = Advisory Committee on Reactor Safeguards
SER = Safety Evaluation Report

Meetings

The Public Exit Meeting - AMP/AMR Audit will be announced on the NRC's web page.

Public Exit Meeting - Scoping & Screening/AMP Inspections	04/01/06
Public Meeting - draft Supplemental Environmental Impact Statement (SEIS)	07/12/06
ACRS Subcommittee Meeting on SER with Open Item(s)	10/06
ACRS Full Committee Meeting on SER	02/07

After consulting these pages, if you have additiional questions please contact me.

Hi,

I have read the NRC website in regards to the Oyster Creek situation, but I'm afraid I don't understand the acronyms for activities listed in the schedule. Can you explain to me the process for the license renewal from this date forward? Also, in particular, can you explain to me how the public can be involved in the process, especially in regard to safety considerations?

Is there a phone number I can call you at?

What documentation of safety is required by the NRC liscense renewal process?

I would also like to request that all documents you have on hand regarding safety at the Oyster Creek station be mailed to me at:

Windy Cooler-Stith
4006 30th St
Mt Rainier, MD 20781

Thank you in advance for your prompt reply,
Windy Cooler-Stith
