

March 16, 2006

Mr. Joseph E. Venable
Vice President Operations
Entergy Operations, Inc.
17265 River Road
Killona, LA 70066-0751

SUBJECT: CORRECTION OF LICENSE AND TECHNICAL SPECIFICATIONS FOR
WATERFORD STEAM ELECTRIC STATION, UNIT 3 (WATERFORD 3)
(TAC NO. MC1750)

Dear Mr. Venable:

The NRC staff has completed its review of the license authority files for Waterford Steam Electric Station, Unit 3. The review consisted of comparing the NRC authority files with Entergy Operations, Inc. (licensee) records to ensure errors in licenses and technical specifications were identified and corrected.

The NRC began this effort in October 2003. The comparison of the NRC and licensee's copies was started in November 2004 and completed in January 2006. Upon initial review, inconsistencies were identified by the NRC staff. However, due to the time between the beginning and conclusion of this effort, changes that were originally noted have now been reconciled.

If you have any questions, please call me at 301-415-3062.

Sincerely,

/RA/

N. Kalyanam, Project Manager
Plant Licensing Branch IV
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
