Mac/Rags,

See attached. Please work with the Region and let's get on Jim's Calendar for a briefing tomorrow. Make sure we coordinate appropriately with DIRS.

Thanks,

Ed

> NRR

Jim Dyer has asked for a briefing on the tritium issue. He specifically requested diagrams that would help him understand the release paths (Cathy). I think he would also benefit from HP and ROP perspectives (Mike).

Cathy--please take the lead for the briefing. Shoot for tomorrow morning. Thanks.
