**Subject:** Publication of NRC Proposed Rule to Update 10 CFR Part 52, Licenses, Certifications, and Approvals

This is to announce publication of the proposed rule to update 10 CFR Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants," in the *Federal Register* on **March 13, 2006, (71 FR 12781)**. This revised proposed rule supersedes the Commission's July 3, 2003 (68 FR 40026), proposed rule on 10 CFR Part 52.

Comments on the proposed rule will be accepted through May 30, 2006. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date. Comments should include the identification number RIN 3150 AG-24 in the header or subject line.

Comments may be mailed to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Rulemakings and Adjudications Staff. They may be e-mailed to: [SECY@nrc.gov](mailto:SECY@nrc.gov), and may be submitted via the NRC's rulemaking Web site at <http://ruleforum.llnl.gov>, or through the Federal Rulemaking Portal at <http://www.regulations.gov>. Comments may also be faxed to the Secretary at 301-415-1101, or hand-delivered to 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m. on federal workdays.

The Commission has prepared a draft regulatory analysis on this proposed regulation. The analysis examines the costs and benefits of the alternatives considered by the Commission. The Commission is requesting public comment on the draft regulatory analysis. Comments on the draft analysis may be submitted to the NRC in the same manner as comments on the proposed rule, as indicated above. The draft analysis can be viewed in NRC's Agencywide Document Access and Management System (ADAMS) system, Accession Number **ML052840320**. Publicly available documents are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/NRC/ADAMS/index.html>. From this site, the public can gain entry into the NRC's ADAMS system. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC PDR Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Questions regarding the proposed rule or regulatory analysis should be addressed to Nanette Gilles, Division of New Reactor Licensing, Office of Nuclear Reactor Regulation, at e-mail [nvg@nrc.gov](mailto:nvg@nrc.gov) or at 301-415-1180 or to Jerry Wilson, Division of New Reactor Licensing, Office of Nuclear Reactor Regulation, at e-mail [jnw@nrc.gov](mailto:jnw@nrc.gov) or at 301-415-3145.
