Subject: Amendment to License No. 45-09428-02 to Include Selenium 75

Reference: Conversation between Kathy D. Modes and Harry W. Compton, Jr.
on March 13, 2006

Dear Sir:

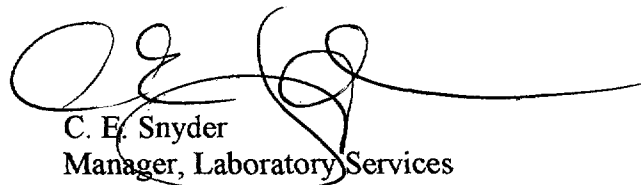

Please amend Newport News Shipbuilding and Dry Dock Company (Northrop Grumman Newport News) Materials License No. 45-09428-02 to include Selenium 75 as stated in Items 5 and 6 (Enclosure).

The Selenium 75 source is adequately covered by our radiation safety program and there are no changes necessary in our emergency and operating procedures.

I can be reached at (757) 380-7936, Fax: (757) 688-6022, or
e-mail: Earl.Snyder@ngc.com.

An expedited review would be appreciated.

Sincerely,

C. E. Snyder
Manager, Laboratory Services
