Licensing Assistance Team, Senior Manager, Sources  
475 Allendale Road  
King of Prussia, PA 19406

fax number 610-337-5269

Per Bill Collins' conversation with Randy Ragman earlier this afternoon,  
we're requesting an

**expedited amendment**

03003390

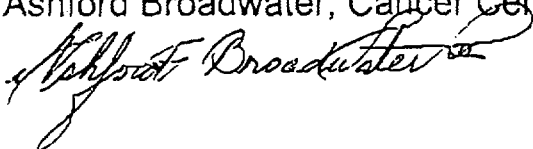

to our current NRC license number 47-09772-02 to include Ir-192 ribbons,  
model number 81-01 from Best Industries, under the second column, item  
7 Chemical and/or physical form, part D. The maximum activity in the third  
column can remain at 1.0 curies.

**Our patient is scheduled to be treated tomorrow, March  
22, 2006.**

and we need your approval to in order the sources from Best today so that  
we can receive them for her treatment tomorrow.

We hadn't requested this addition to our license previously because until  
today we'd assumed that our license update on April 24, 2005 included  
these sources. Thank you for promptly addressing this matter. If you  
require any more information, please call us at 304-424-2745.
