Ocean Action 732-872-0111 policy@cleanoceanaction.org

zipf@cleanoceanaction.org

Clean Ocean Action is drafting comment letter to NJDEP relative to NPDES permit

She will check with her staff to see if they have any information we should review for SEIS

Maybe also a conference call with NRC & Team-she will let me know

Tom Fote, President, Jersey Coast Angler's Association 732-506-6565

No answer. Left voice mail and will send email today describing how we got his name, what we are doing, and the kind of information we are looking for

William DeCamp, President, Save Barnegat Bay 732-830-3600  
wmdecamp@cs.com

Long, Kennish-like conversation today

Distrusts NRC and the process-totally against continued operation of OCGS

Wants to see out-of-scope scenarios addressed in environmental portion of SEIS (e.g. consider scenario where terrorism action results in release of nuclear materials to BB)

May have some technical documentation related to bird studies on farm

site adjacent to plant-will let me know

No other relevant technical documentation available, but lots of opinions, mostly negative
