

March 3, 2006

NRC 2006-0031

Mr. James L. Caldwell, Regional Administrator
U. S. Nuclear Regulatory Commission
Region III
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

Dockets 50-266 and 50-301
License Nos. DPR-24 and DPR-27
Point Beach Nuclear Plant
Request for Meeting on March 23, 2006

On October 6, 2005, the U. S. Nuclear Regulatory Commission (NRC) completed an expanded-size, baseline team inspection of Point Beach Nuclear Plant (PBNP) problem identification and resolution. Results of this inspection were published on November 16, 2005, in Inspection Report No. 05000266/2005012 and 05000301/2005012.

The inspection scope included an assessment of the Synergy survey at PBNP. While there were no violations or unresolved issues identified as a result of this assessment, Nuclear Management Company, LLC (NMC) desires to further discuss the NRC assessment of this area and to provide additional information of actions which have been taken and initiatives that are planned.

Accordingly, it is requested that a follow-up meeting on this matter be held at the Two Creeks Town Hall, Two Creeks, Wisconsin, on March 23, 2006, beginning at 1:00 P.M. Please advise me if the proposed meeting time and location are acceptable. If you have additional questions regarding this matter, please contact me at 920/755-7568.

Dennis L. Koehl
Site Vice-President, Point Beach Nuclear Plant
