Subject: Question to Timothy Johnson , Ned farquhar and Tannis Fox about the Lea county enrichment plant.

We have a lot of loose soil in this area. Even the NMED department was studying dust problems for a while. When the wind blows in this area, we get sand in the air. And it doesn't take an extremely high wind either.

My question to the NRC, Timothy Johnson and Ned Farquhar, and Tannis fox , where are the federal or state studies showing the emission effects of u234, u235, u236 and U238, combined with the high winds and airborne dust particles on humans?

Phillip Barr
Lea County
