Subject: Health question to the NRC and DOE about Les enrichment plant safety

Ive got a question for the NRC and the DOE . If uranium enrichment is so safe in this country, and all the safeguards are always in place all the time, how did Mr. Harding a worker at the Paducah uranium enrichment plant get so sick?

I understand when his body was exhumed , his bones were found to have 1700 to 34,000 times the expected level of uranium.

How can this happen when US government safe quards are in place at a government regulated enrichment plant?.

Any answer Mr. Johnson? What happened to this man? Would Mr. Seifert or Ms. Schacher of the DOE have any thing to say about Mr. Harding?

After all the NRC is saying the LES plant will have safeguards too.

Government safeguards in this industry seem to have a poor record. To quote Mr. Farquhar, Im sure the readers might be interested in your reply.
