Subject: Les enrichment plant and Insurance companies part 2

I thought any claim or risk assessment office in a insurance company might be interested in the email traffic (during the Les plant licensing process) between civilians , state of New Mexico officials ,NRC and Doe. . The questions asked and answers received.

I found a website that listed insurance companies and underwriters and offered them info on les like what is below. I asked each company so share information with others.

To my surprise, several companies have answered.

If that Les plant gets licensed and makes someone sick, by the time a claim hits an ins adjustor's desk, theres going to be a darn good chance they will have a file on Les already.

Subject: radiation monitors for schools

I would like to renew my request that the state of New Mexico provide funding from state funds for radiation monitors in Eunice and Hobbs schools. These schools will be downwind of the Les enrichment plant.

This would be for the safety of school children.

Subject: radiation monitors for schools

I request the Radiation control bureau consider and provide funding for radiation monitors in Eunice and Hobbs schools.

If the Les enrichment plant is built , several schools will be downwind of the plant.

Subject: very good question for Governor Richardson about the LES enrichment plant

Governor,
What is a minor amount of a carcinogen?
Is it the same for a baby, child, adult, or senior citizen?
Sick or healthy?
Seems like a former Energy Secretary could answer that one.
Phillip Barr
Lea County, New Mexico
