**Subject:** RE: License request for the facility name change

Hi Breedea,

Yes, I was waiting on an email from Treasury to send you, but we will be sending a letter to the bank that carries our Letter of Credit (LOC) for the decommissioning plan that requests that the name change be reflected. The bank will then issue an amended LOC to the NRC.

Hi Charlie,  
Have you heard anything back from your folks?  
Thanks,  
Breedea

Hi Breedea,

Sorry I missed you. I'm verifying with our treasury folks about the decommissioning question, but I'm sure the answer will be yes they will be maintained up-to-date and current. Please see the other responses below.

Subject: License request for the facility name change

Hi Charlie,

As a followup to your license amendment request for the facility name change (dated March 7, 2006), can you confirm that:

- (1) there is no change in the names of (for example) the Radiation Safety Officer or other positions described in the license (CFH: There will be no changes to the names of the positions described in the license application for SNM-1168);
- (2) the activities, use, possession, locations described in the license remain unchanged (CFH: There will be no changes to the activities, use, possession and locations as described in the license application for SNM-1168);
- (3) the facility described in the license remains unchanged (CFH: There will be no changes to the facility as described in the license application for SNM-1168);
- (4) procedures described in the license remain unchanged (CFH: There will be no changes to procedures as described in the license application for SNM-1168);
- (5) the organization described in the license remains unchanged (CFH: There will be no changes to the organization as described in the license application for SNM-1168); and
- (6) the equipment described in the license remains unchanged (CFH: There will be no changes to the equipment as described in the license application for SNM-1168).

Additionally, can you confirm that the financial assurance for decommissioning documents will be maintained up-to-date and that the current financial assurance method remains in effect until you submit revised financial assurance documents and NRC approves them.

Feel free to call me if you have any questions,

Thanks,

Breedda
