March 28, 2006

Docket No. 03034556  
Control No. 138402

License No. 47-25408-01

Michael D. Sundall  
CEO  
Ultimate Health Services  
2860 Third Avenue, Suite 210  
Huntington, WV 25703-1453

SUBJECT: ULTIMATE HEALTH SERVICES, REQUEST FOR ADDITIONAL INFORMATION  
CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL  
NO. 138402

Dear Mr. Sundall:

This is in reference to your letters dated January 16, 2006 and January 23, 2006 requesting to amend Nuclear Regulatory Commission License No. 47-25408-01. In order to continue our review, we need the following additional information:

1. Your amendment request should have been signed by Mr. Sundall rather than Sara Marks. Please submit a letter signed by Mr. Sundall indicating that management has reviewed the request and concurs in the statements and representations contained therein. Note also that a management representative should sign all future correspondence that requests a change in your license.
2. You have requested the removal of your facility that has the same address as the mailing address submitted in your application. Please submit the mailing address that you wish to use for future correspondences.
3. You have request the removal of your facility located at 2860 Third Avenue, Suite 210, Huntington, West Virginia. The guidance in removing a facility is located in NUREG-1757, Volume 1, Revision 1, "Decommissioning Process for Materials Licensees." In accordance with this guidance as given on page 8-1, section 8.2, please provide the following additional information:
  - a. For all sealed sources, including those no longer in licensee's possession, provide results from the most recent leak tests demonstrating there has been no leakage.
  - b. Submit NRC Form 314, "Certificate of Disposition of Material," or equivalent information (enclosed). Written conformation frm the recipient listed on NRC Form 314 that the material has been transferred to them should be attached to the Form 314.

4. The submitted survey did not include one hundred percent scanning of all surfaces in the area of the facility where licensed material was used or stored. Radiation levels at one meter above surfaces were not given. Efficiency of the smear counter was not given. Additionally the survey showed a bias associated with the swipes taken as all swipes were below background reading. The required methodology for release survey is specified in NUREG-1757, Volume 1, Revision 1, page 8-2, figure 8.1, "Simplified Survey Procedures." Please submit a survey following this value or alternatively, if only using short half live unsealed radionuclides, please state the isotopes used at the facility and the date all materials were removed from the site.

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Medical, Industrial, and Academic Uses of Nuclear Material**; then **Toolkit Index Page**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 138402. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5366.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,

***Original signed by Dennis R. Lawyer***
