Dear Sir:

03032182

This letter is to request an amendment to NRC license no. 37-28641-01 for Consol Pennsylvania Coal Company. The Bailey Preparation Plant would like to change the present RSO from Mr. Tom Crawshaw as listed on the license, to Mr. Ken Ellis.

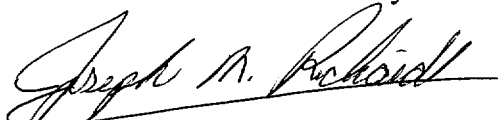

Mr. Ellis has over twenty-five years of experience with fixed gauges containing radioactive sealed sources used for coal processing and successfully completed a forty-hour RSO training course on March 29, 2001. The course meets the criteria for acceptable RSO training as outlined in Appendix G of NUREG-1556, Volume 4, dated October 1998. A copy of the certificate indicating successful completion of this training is attached.

Please note that a Mr. Richard Siburt, electrical foreman at the Bailey Preparation Plant, is scheduled to attend a twenty-four hour RSO training course to be completed May 10th, 2006. The course will be provided by Applied Health Physics, Inc., 2986 Industrial Blvd., Bethel Park PA, 15102. The training course meets or exceeds the criteria for RSO training as outlined in Appendix G of NUREG-1556, Volume 4, dated October 1998. Once this training is completed, Consol Pennsylvania Coal Company will submit another request for license amendment, to change the RSO from Mr. Ellis to Mr. Siburt.

Should you have any questions or concerns regarding this request, please contact me. Your help and cooperation is appreciated.

Sincerely,

On Behalf of Consol Pennsylvania Coal Company

Joseph M. Richards
