On March 23, 2006, the Nuclear Regulatory Commission (NRC) held a public meeting at the Two Creeks Town Hall in Two Creeks, Wisconsin. The meeting was between NRC Region III management and Nuclear Management Company (NMC) representatives to discuss the NRC's assessment of Point Beach's safety performance for the period from January 1 through December 31, 2005. The NRC began the meeting with an overview of the NRC's Reactor Oversight Process (ROP), national ROP results, and the Action Matrix in general. This was followed by a discussion of the NRC's assessment of Point Beach's performance in the calendar year 2005, which was documented in the March 2, 2006, end-of-cycle assessment letter. As part of the regulatory performance meeting, NMC responded to the NRC's assessment and briefly discussed efforts to continue improvement in the engineering area. At the end of the meeting, members of the public were given the opportunity to ask questions of NRC officials.
