**Subject:** West Access Road improvements

Kelly,

On March 3, 2006, we received information from Mr. Geoffrey Sea asserting that he had discovered a new prehistoric earthworks located just south-east of the Rt 23 interchange with the West Access road to the DOE reservation. Mr. Sea also indicated that the West Access road was the subject of a roadway improvement project by the Ohio Department of Transportation (ODOT) and is slated to begin on March 6, 2006. As part of the NRC's compliance with Section 106 of National Historic Preservation Act we request the following information:

1.) Please describe whether the proposed West Access road improvements being carried out by ODOT were at the request of USEC, Inc. for the proposed ACP.

I apologize for the informal request but there is a time sensitivity as it relates to ODOT's improvements and we needed to make contact quickly. We would appreciate a prompt response via email if possible.  
Thank you.

Matt
