**Subject:** Chairman Diaz needs information on status of the Generic Letter 2006-002, Grid Reliability ...

Chairman requests a status paper on the subject Generic Letter for a meeting he is attending where the Chief Nuclear Officers are meeting with Chairman Kelleher, FERC, on April 12. He requested it no later than April 11.

In the package please provide a response to NEI statement in their letter to FERC dated March 21, 2006:

NRC authority "...does not include authority over nuclear power plant interactions with transmission providers. That authority clearly rests with FERC and NERC. We do not believe the NRC has provided a legitimate basis for the information requested in the Generic Letter 2006-02."

You should also have responses from licensees, so if there are any issues those should be brought to the Chairman's attention.
