Dear Dr. Deering:

It has come to our attention that Amendment No. 02 to NRC License No. 21-32527-01 contained an error. Item No. 9.A. and 9.B. read the same. Item No. 9.A is now corrected and reads "any uptake, dilution and excretion study permitted by 10 CFR 35.100".

We apologize for any inconvenience this may have caused you.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Sincerely,
