Documentation of supervised experience

This letter is to inform you of Dr. Edward Kaliman supervised experience as authorized has included the following.

1. The ordering, receiving, and unpacking radioactive materials safely and performing the related radiation surveys.
2. He Performed quality control procedures on instruments used to determine the activity of dosages (dose calibrator) and performing checks for proper operation of survey meters.
3. He was calculating, measuring, and safely preparing patient dosages.
4. Used administrative controls (policies and procedures) to prevent a medical event involving the use of unsealed byproduct material.
5. Followed procedures to contain spilled byproduct safely and using proper decontamination procedures.
6. Administering dosages of radioactive drugs to patients.
7. He eluted (Mo-Tc99m) generators appropriately for preparation of radioactive drugs for imaging and localization studies. He measured and testing the eluate for radionuclide purity, and processing with reagent kits to prepare labeled radioactive drugs.

Dr. Kaliman has satisfactorily completed the requirements in 10 CFR 35.290(c)(1) and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under 35.100 and 35.200.

Thank You,

Fernando L. Arevalo M.D.
