To whom it may concern, regarding license number 45-16209-02, Mail control 138542:

This information is submitted in response to your recent request for more information regarding our newly constructed Sentara Williamsburg Regional Medical Center at 6601 Mooretown Road, Williamsburg, VA, 23188. First of all let me inform you that the road has been renamed Sentara Circle. SWRMC will be located at 100 Sentara Circle and the Outpatient Care Center is at 400 Sentara Circle.

The two rooms designated on the fourth floor for inpatient iodine therapies are rooms 115 and 116. Directly below these rooms on the third floor are also inpatient rooms. Between each floor is a concrete slab that alternates in a regular pattern between three and six inches thick. Above these two rooms are exclusively mechanical spaces on the fifth floor. Please see attached plans for third and fourth floors.

Iodine-125 seed implants will be performed in any of the five operating rooms on the second floor. Diagram of the second floor surgical area is attached.

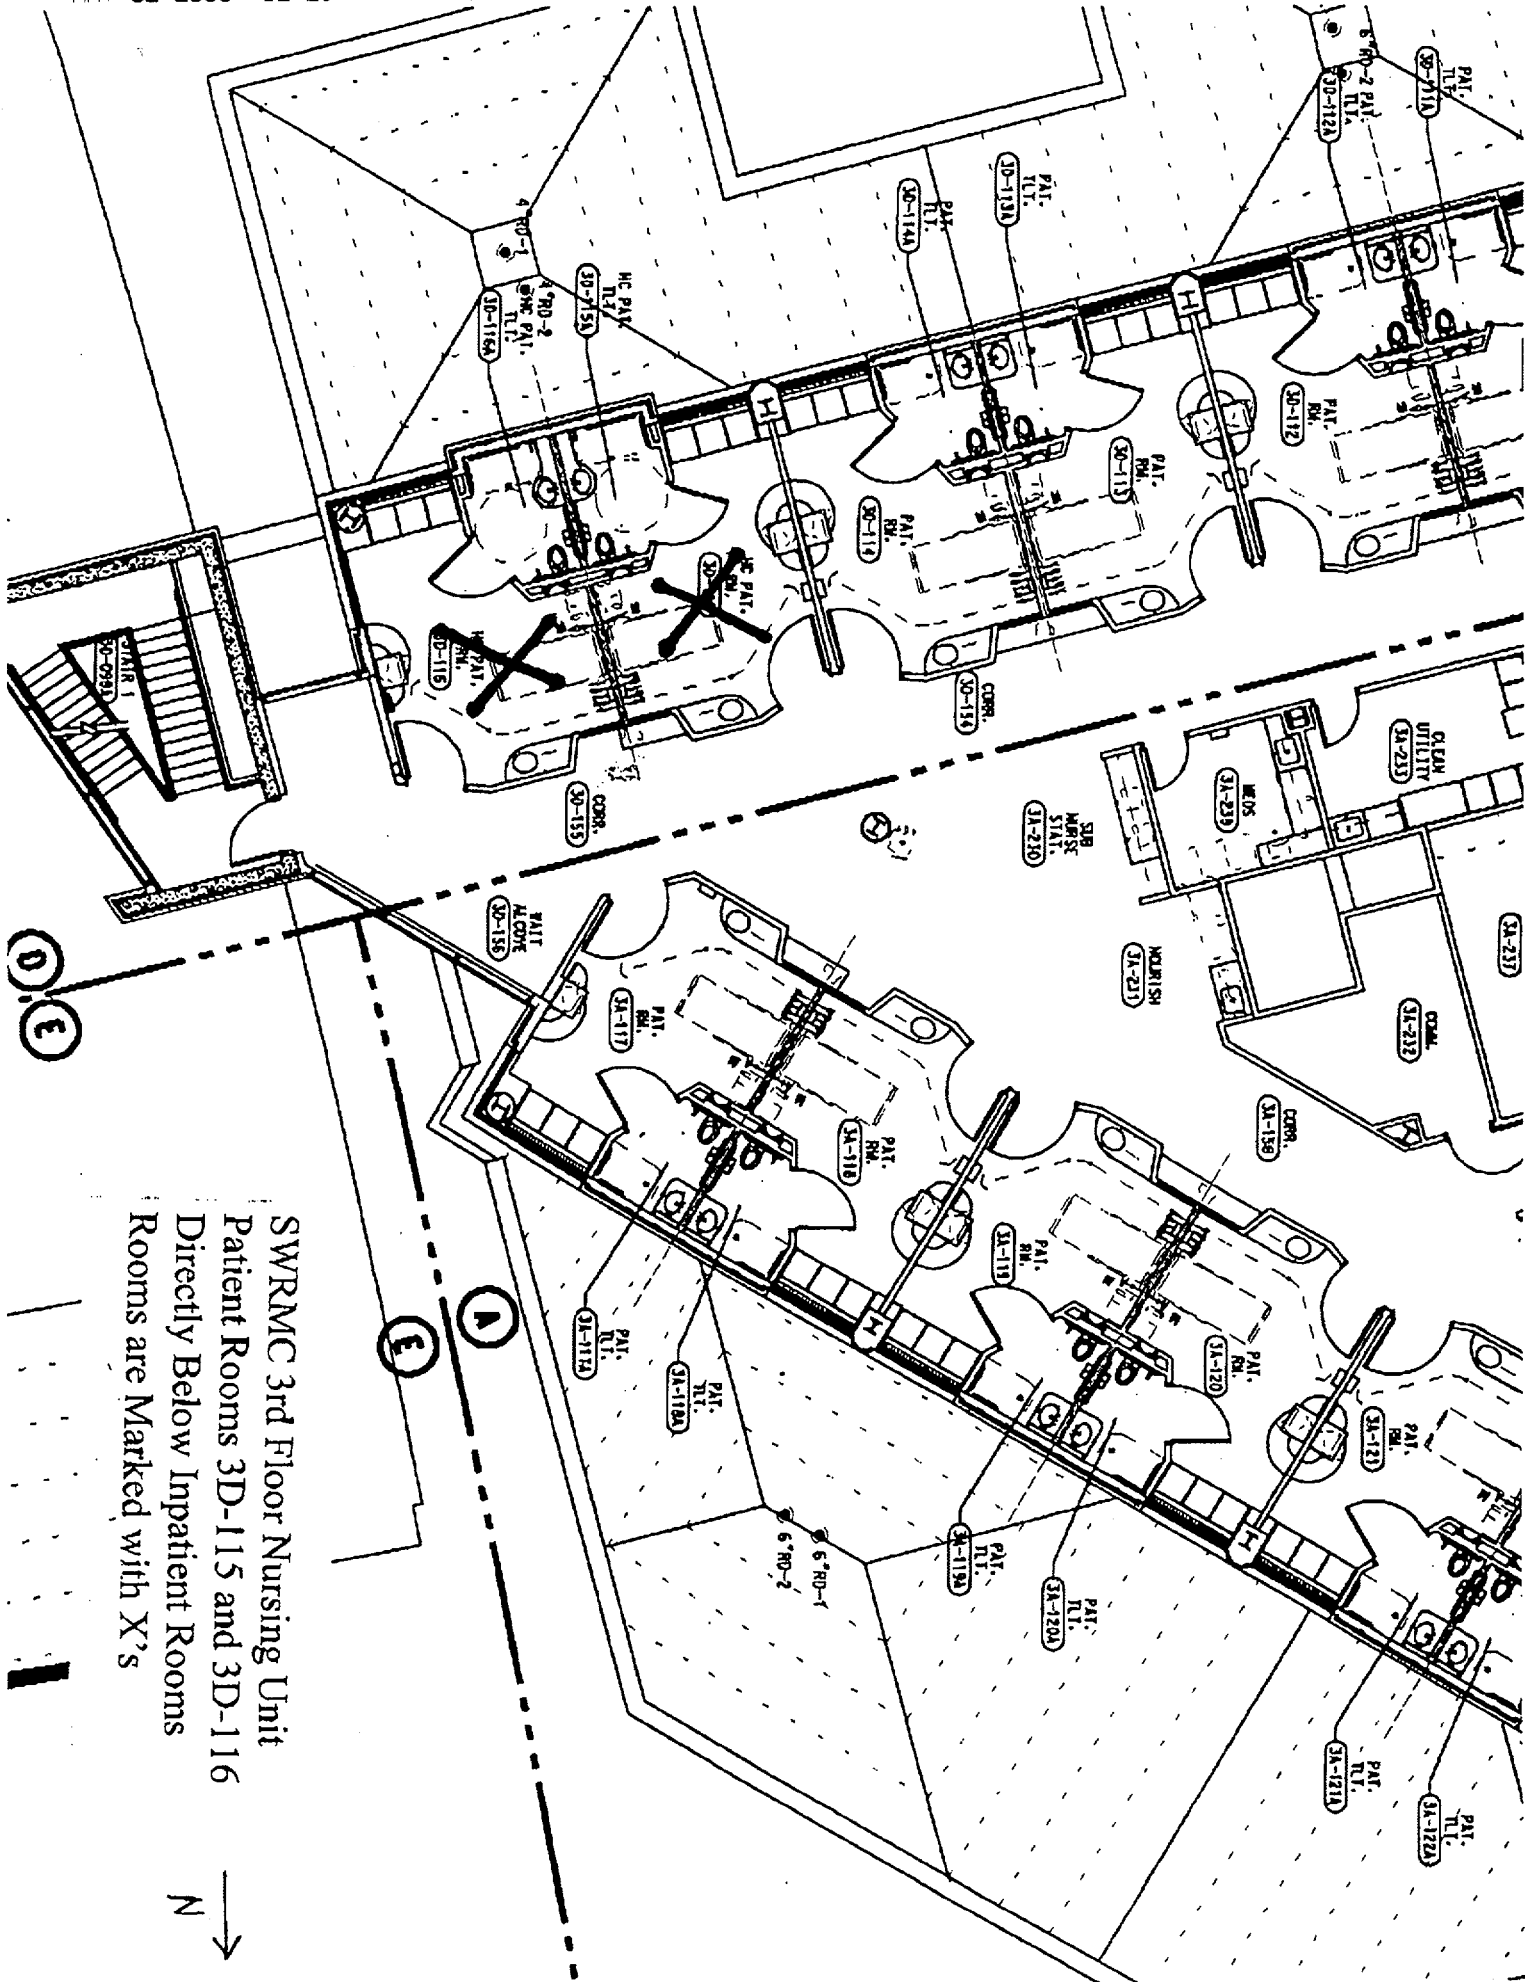

For more information, please do not hesitate to contact our Radiation Safety Officer, Sandy Wolff, at (757) 388-3030 or page her at (888) 341-5703.

Sincerely,

Sandy Wolff, Radiation Safety Officer
Sentara Williamsburg Community Hospital
