MEETING NOTICE

Name: Workshop on the U.S. Nuclear Regulatory Commission's (NRC's) Rulemaking for Groundwater Protection Requirements at *In Situ* Leach Uranium Recovery Facilities

Date and Time: June 29, 2006
9:00 a.m. - 12:00 Noon

Location: Sheraton Denver Cherry Creek Hotel
Aspen Room
600 South Colorado Blvd.
Denver, Colorado 80246
(303) 757-3341

☒ Newly scheduled ☐ Revised ☐ Canceled

Purpose: To discuss and receive early stakeholder input on NRC's plans to revise the groundwater protection requirements at *in situ* leach (ISL) uranium recovery facilities.

In a staff requirements memorandum (COMJSM-06-0001), the Commission directed the NRC staff to focus on eliminating dual regulation, by the NRC and the U.S. Environmental Protection Agency (EPA), of groundwater protection at ISL uranium recovery facilities. The Commission directed that the NRC should retain its jurisdiction over the wellfield and groundwater under its Atomic Energy Act authority, but should defer active regulation of groundwater protection programs, at ISL uranium recovery facilities, to the EPA or the EPA-authorized State through EPA's underground injection-control permit program. NRC staff is beginning development of the proposed rule and is seeking stakeholder input including suggestions and concerns to be examined during development of this proposed revision to the existing regulations. NRC staff plans to hold additional workshops after the proposed rule is published for comment.

Participants:	<u>NRC Offices</u>	<u>Outside Organizations</u>
	Myron (Mike) Fliegel, FCSS	Various
	Gary Comfort, IMNS	
	Bill VonTill, FCSS	
	Ron Linton, FCSS	
	et al.	

Contact: Gary Comfort, NMSS/IMNS/RGB
(301) 415-8106
gcc1@nrc.gov

Category: Category 3. The public is invited to participate in this meeting by providing comments and asking questions throughout the meeting.
