Dear Mr. Lawyer:

Please accept this letter as our formal request to amend the language of our NRC license in response to your recent audit of our radiation safety program.

In Section 9., Authorized Use, the amendment should read "A. through I. Research and development as defined in 10 CFR 30.4 and teaching and training for the same materials."

I am also pleased to advise that we have labeled each laboratory door with the appropriate radiation safety label (Radioactive Materials) and have provided a photograph for your review. If you have any questions, please call me at 717-872-3043 or contact our Radiation Safety Officer at (717) 872-3715.

Sincerely,

Bernice R. Rydell
Vice President for Finance and Administration
