Subject: Ammendment to Duquesne University Materials License No. 37-02451-04

Dear Dr. Lodhi:

The purpose of this letter is to amend the list of authorized users for licensed material.

**Update:** Vicki Davis, Ph.D

It is requested that Vicki Davis be authorized to use Iodine 125 in addition to those isotopes she is already authorized to use. Dr. Davis has worked with Iodine 125 at several establishments during her work as a graduate student, technician, and post-doctoral fellow. She will be working with only the non-volatile compounds. Dr. Davis would then be authorized to use licensed material in Items 6.A through 6.E.

**New Authorized User:** Patrick Flaherty, Ph.D.

Dr. Flaherty has six years experience in the handling, storage, use, and disposal of radioactive materials. He has worked with Hydrogen 3 and Carbon 14. He has received training at Duquesne University, the University of Kansas, and the University of Iowa. Dr. Flaherty should be authorized to use licensed material in items 6.A through 6.C.

**Removal of Authorized User:** John S. Doctor, Ph.D.

Dr. Doctor is no longer with Duquesne University. Please remove his name from our license.

If you have any questions please call me at 412-396-6382 or E-Mail [volpe@duq.edu](mailto:volpe@duq.edu)

Sincerely

John J. Volpe, RSO
