SUMMARY OF INFORMATION COLLECTION REQUEST

Title: 10 CFR PART 40, "DOMESTIC LICENSING OF SOURCE MATERIAL," and NRC FORM 484, "DETECTION MONITORING DATA REPORT" (Final OCP) (3150-0020)

Current Burden/Responses: 60,005 hours/956 responses
(NRC Licensees: 22,035 hours/406 responses
Agreement States: 37,970 hours/550 responses)

Proposed Burden/Responses: 65,418 hours/894 responses
(NRC Licensees: 20,769 hours/273 responses
Agreement States: 44,649 hours/621 responses)

Frequency of Response: On occasion.

Number of Respondents: 340

Reasons for Changes in Burden/Responses:

Burden Increased by 5,413 hours
NRC Licensees - 1,266 hour decrease
Agreement State Licensees - 6,679 hour increase

NRC Licensees - burden decrease from 22,035 to 20,769 hours (1,266 hour decrease)

NRC tracks its licensees in a database. Based on current data for 10 CFR Part 40 licensees, the number of licensees is 68, a decrease of 31, from 99 to 68, with a corresponding decrease in the number of responses of 133, from 406 to 273.

Agreement Licensees - burden increase from 37,970 to 44,649 hours (6,679 hour increase)

Based on current NRC data for Agreement State licensees, the number of licensees is 272, an increase of 100, from 172 to 272, with a corresponding increase in the number of responses of 71, from 550 to 621.

Cost Change

The change in cost reflects an increase in the annual labor cost for material licensees from \$152 to \$197 per hour.

Level of Concurrence: Chief
Fuel Cycle Safety and Safeguards Branch
Division of Security Policy
Office of Nuclear Material Safety and Safeguards

Recordkeeping Requirements in Accordance with the Retention Periods for Records/Rule: NA

ADAMS Accession Package: ML061730493
Document: ML061740585

Search of the Information for Duplication and Use of Similar Information:

There is no duplication of requirements, and this information is not available from any source other than the applicants or licensees involved. NRC has in place an ongoing program to examine all information collections with the goal of eliminating all duplication and/or unnecessary information collections

Abstract:

10 CFR Part 40 establishes requirements for licenses for the receipt, possession, use and transfer of radioactive source and byproduct material. NRC Form 484 is used to report certain groundwater monitoring data required by 10 CFR Part 40 for uranium recovery licensees. The application, reporting and recordkeeping requirements are necessary to permit the NRC to make a determination on whether the possession, use, and transfer of source and byproduct material is in conformance with the Commission's regulations for protection of public health and safety.
