**Subject:** supplemental information RAI 4.3-4

John-

In reviewing your RAI response to question RAI 4.3-4, the reviewer needs clarification on the following...

In the May 1, 2006, submittal, the response to RAI 4.3-4 lists the environmental multiplier, Fen, for the feedwater nozzle as 2.19.

This multiplier does not appear to be correct for the LAS nozzle.

Do we need to arrange a followup call to discuss this issue? or is this a typo?

thanks
