Telecon went well but with only Todd Atkinson from Senator Obama's office participating. RIII took the lead with Anne Boland and others including PA & Reg. Liaison in the Region and Steve Orth with us here in HQ. Peter Habighorst, OEDO, responded to Todd's earlier question about other tritium leaks. Todd said he would like an update in the next couple weeks and said he would call to set it up. We committed to providing him with info. as it develops including results of our independent sampling of nearby wells.
