We will not have a bridge line - I just need to know the phone number for our line in the conference room.  
They will call us.

Please also add to the calendar.

Thanks Anne,  
One question that Bill K asked this morning....The state of Illinois has provided examples of violations on what appears to be monitoring wells owned by Exelon and within the OCA (VB-3-4, VB-3-3, VB-3-2, VB-3-6, and RW-2). All of these monitoring wells had greater than EPA limit of 20,000 pci/L.

Please give me a call when you get a chance..thanks

Per our discussion - the attached should provide you the additional information that you requested. Please recognize that some of it is very preliminary regarding the 1998/2000 spills and the inspection staff will pursue the historical actions in further detail during upcoming inspections.

We also incorporated the new Q&A in the comm plan which should be out shortly.

Let us know if you have any questions.
