Stu,

Please review the information I have listed below. Please provide the distribution under project going to and forward to David Pinckney.

Title of Project No.: NGNP Licensing Strategy (Next Generation Nuclear Plant)
Date of Application: June 6, 2006
Name of Applicant: Department of Energy
Name of Project Manager: Stuart D. Rubin, 301-415-7480, T10 E25, T10 K8
Project Going to:
Docketed: Yes
Region: Headquarters

This would also include, but not be limited to, correspondence regarding Next Generation Nuclear Plant from the Department of Energy, Idaho National Laboratory, and Global Nuclear Energy Partnership.

This e-mail is a request for an assigned project number for all documents related to the Next Generation Nuclear Plant (NGNP) pre-application review. This would include records that involve correspondence with the Department of Energy, Global Nuclear Energy Partnership, and Idaho National Laboratory on the NGNP pre-application review, internal interoffice memoranda related to the conduct of the review, and any outside organizations or individuals providing formal communications on any aspect of the review.

It is my understanding that, currently, documents received the file center that do not reference a specific docket or project number are filed by subject. It would be most helpful if all documents related to the NGNP review were filed together.

Thanks.

Peggy
