Subject: FW: MH-5 M, OUTAGE WATER SAMPLE

Do we need to get a sample from MH-5? If so, let me know ASAP so I can coordinate it with Ron.

Subject: MH-5 M, OUTAGE WATER SAMPLE

Greg:

We plan to sample MH-5 curtain drain again today. We did a split sample with you about 2 weeks ago before the outage started.

I don't know if you (NRC) want a split of this second sample. This will be called the "Mid Outage" MH-5 curtain drain sample". We will survey this same area at the end of the outage called " Post Outage MH-5 curtain drain sample. This is to see if the transfer canal leaks.

Please let me know if the NRC wants a split (ie you witness this) of this sample today, so the chemist does not do it without your observation.

Thanks,

Ron Sachatello
